Strong background in ERP/HRMS, E-Recruitment, BRAC Payroll, Procurement/e-Tender requirements analysis, QA documentation, stakeholder collaboration, mentoring and release readiness.

CORE COMPETENCIES

QA Leadership & Team Mentoring | Test Strategy, Planning & Estimation | Functional, Integration & Regression Testing | Test Automation | API Testing & Validation | Performance & Load Testing | Security Testing | Defect Management & Triage | Requirements Analysis | UAT & Release Support | Agile/Scrum & SDLC | QA Process Improvement | ERP/HRMS/E-Recruitment/ BRAC Payroll/ Procurement/e-Tender Quality Assurance | Technical Documentation & Reporting.

TECHNICAL SKILLS

Automation: Playwright-Python, Selenium-Java

API / Backend: Postman, REST API, API validation

Performance: K6, Apache JMeter, BlazeMeter

Programming: Python, Java

Database: SQL, PostgreSQL

Test / Project Management: Jira, Agile, Scrum

Testing: Functional, Integration, Regression, Security, Usability, UAT

PROFESSIONAL EXPERIENCE

Technical Lead, Software Quality Assurance | BRAC IT Services Ltd. | July 2023 – Present

- Lead QA planning and execution across multiple projects, aligning testing activities with business and quality objectives.
- Manage and mentor QA team members, coordinate task execution and promote effective testing practices.
- Design and execute manual and automated test cases; identify, document and track defects through resolution.
- Prepare test plans, test strategies and QA reports, and collaborate with developers, product stakeholders and other teams.
- Drive quality improvement through automation, regression coverage, performance testing and continuous QA process enhancement.
- Work with Selenium-Java, Playwright-Python, K6 and Apache JMeter for UI automation and performance validation.

Lead SQA Engineer | BRAC IT Services Ltd. | July 2017 – May 2023

- Tested applications against business and system requirements and supported quality validation across multiple projects.
- Created and executed test plans, test cases and QA documentation; tracked defects and supported timely resolution.
- Managed multiple projects in Agile/Scrum environments and coordinated QA activities with project stakeholders.
- Provided ERP-HRMS training and documentation and contributed to requirement analysis and project coordination.

Associate Manager, SQA Engineer | BRAC IT Services Ltd. | January 2015 – June 2017

- Led product quality assurance, QA planning, resource estimation, task delegation and test/defect management.
- Conducted functional, integration, regression and security testing and reviewed test cases and QA deliverables.
- Developed test automation scripts using Selenium and JMeter and supported process improvement initiatives.
- Managed defect triage, customer issues, QA hiring activities, vendor coordination and team mentoring.

Key ERP Projects: sbiCloud ERP – BRAC International; sbiCloud ERP – BRAC Bangladesh.

Sr. SQA Specialist | 20-20 Technologies Bangladesh Ltd. | July 2013 – October 2014

- Led QA scope, goals and deliverables; developed QA plans, resource estimates and team communication.
- Executed functional, integration, regression, security and usability testing and developed Selenium/JMeter automation scripts.
- Created and reviewed test cases, prepared defect reports, mentored peers and supported project issue resolution.

QA Specialist | 20-20 Technologies Bangladesh Ltd. | March 2011 – June 2013

- Conducted functional, integration, regression, security and usability testing and prepared test cases, defect reports and project documentation.
- Supported QA communication, training, knowledge sharing and peer mentoring across multiple software projects.

SQA Engineer | Recursion Technologies Limited | January 2009 – February 2011

- Performed requirements analysis, software testing, implementation and user training.
- Developed UAT, system, integration and unit test plans, test cases and test reports and prepared use-case descriptions.

Software Programmer | Spectrum Engineering Consortium Ltd. | June 2006 – December 2008

- Participated in requirements analysis, software testing, implementation, data preparation and user training.
- Worked on enterprise software projects including Criminal Database Management System (CDMS), SECL Website Development and MP2 CMMS implementation.

SELECTED PROJECT / DOMAIN EXPERIENCE

- Enterprise ERP / HRMS: Extensive QA involvement in sbiCloud ERP implementations for BRAC International and BRAC Bangladesh, covering enterprise HR and business processes.
- E-Recruitment: Software quality assurance and testing of recruitment and hiring workflows, including web-based recruitment functionalities.
- Payroll: QA and functional testing involvement in payroll-related business processes and HRMS functionalities.
- Procurement / eTender: Testing and quality validation of procurement and eTender-related workflows and business processes.
- Software QA: Enterprise web application testing across multiple projects and products, including functional, integration, regression, security and usability testing.
- Test Automation: UI test automation using Selenium-Java and Playwright-Python.
- API Testing: API validation and testing using Postman and Python-based automation approaches.
- Performance Engineering: Load, stress and performance validation using K6, Apache JMeter and BlazeMeter.
- QA Leadership & Process Improvement: Test strategy, planning, estimation, team coordination, mentoring, defect management and release-readiness activities.

LEADERSHIP & QA CONTRIBUTIONS

- QA team coordination, mentoring and skill development.
- Test strategy, estimation, planning, execution tracking and stakeholder reporting.
- Requirement analysis, risk identification, defect triage and release-readiness support.
- Continuous improvement of testing workflows, documentation and quality practices.

EDUCATION

- Master of Business Administration (MBA), Human Resource Management — Independent University, Bangladesh, 2011
- Bachelor of Science (B.Sc.), Computer Science — Independent University, Bangladesh, 2006
